AUDITOR'S CERTIFICATE

ALICE F. REED,
Town Auditor

Albany, N. H., January 3, 1953.

REPORT OF FOREST FIRE WARDENS

Once again we are about to enter another forest fire season and once again your town forest fire warden is asking you to be careful of fires in our woodlands and along our roadsides. There is nothing more displeasing to the eye than an area of blackened waste. Nine out of ten of these blackened areas are caused by You and You. It is only with your co-operation that we can prevent such an area in our town. A great part of the men and women of this area depend on timber for their weekly pay check, and by you and you being careless, these people are being deprived of a living. We can't even try to prevent fires caused by lightning, but the number of fires caused by this agent is very small. It is you as a smoker, as a debris burner, — you as a careless person, who can do a great deal in preventing this most shameful waste of our natural resources.

You can help by making sure your smoking material is out — DEAD OUT, your incinerator is air tight, the area around it is cleaned of all burnable material, that you have had it inspected by your forest fire warden, that you have asked for and received a permit to burn from your forest fire warden. By doing these things the number of fires are going to be fewer and you will have woodlands to hunt in, to have picnics in, to be able to fish the stream. You will also be proud of your green mountainsides. By not doing this you will not enjoy yourself at all. It is not too long ago that most of us can still remember the fall of 1947, and we all know that most of these fires during that period could have been prevented if everyone was careful. So, it is only You and You that can prevent this most shameful waste of our woodland by this common enemy — FIRE.

Please remember it is a proud record for you to say that your town had no woods fires this past year and it is only through you and you this goal can be reached. So, please help us to prevent forest fires.
